

SUPPL. TABLE 1
TABLE OF THE PREPARATION OF THE SOIL

Area	Record	Morphology and set up				Material			Assemblage			Connection with conduits	Dimension			Chronology
		Position	Plain	Cross section	Covering	Bottom material	Wall material	Covering material	Joint	Type of bottom coating	Type of wall coating		Length	Width	Depth	
Sanctuary Località	Tank (pre-sanctuary phase) N. 41.2	-	Squared	Squared	Absent	-	-	Absent	Absent	Clayey loam	Clayey loam	-	4 m	3 m	0,70 m	First half of 7th century B.C.
Urban centre	Pool of the bath N. 53.3	Above ground	Rectangular	Squared	Absent	Cocciopesto	Cocciopesto	Absent	-	Marble and limestone squared slabs	Marble and limestone squared slabs	-	-	-	-	Age of Augustus - A.D. 3rd century
Domus Località Fomasotti	Tank (1st phase) N. 58.10	-	Rectangular	Squared	Absent	-	Tiled tiles	Absent	-	-	-	-	1 m* Tiles: 0,45 m	0,60 m*	-	Ante second half of 1st century B.C.
	Tank (2nd phase) N. 58.25	-	Rectangular	Squared	Absent	-	Tiled bricks	Absent	-	-	-	Two openings in the bottom part	1,25 m Bricks: 0,45 m	1,10 m	0,25 m	Last quarter of 1st century B.C. - A.D first half of 1st century
	Tank (2nd phase) N. 58.26	-	Squared	Squared	Absent	-	Tiled bricks elements	Absent	-	-	-	-	2,40-2,12 m*	1,20-1,30 m*	-	Last quarter of 1st century B.C. - A.D first half of 1st century
	Tank (2nd phase) N. 58.27	-	Rectangular	Squared	Absent	-	Tiled bricks, tile fragments	Absent	-	-	-	-	1 m*	1,30 m*	-	Last quarter of 1st century B.C. - A.D first half of 1st century
Suburban Villa	Western tank N. 63.1	Above ground	Rectangular	Squared	Absent	Bricks (3 courses preserved)	Bricks (2 courses preserved)	Absent	Mortar	Mortar	Mortar	-	8,50 m	8 m	-	Age of Augustus - A.D. 2nd century
	Tank in the eastern sector N. 63.2	Above ground	Rectangular	Squared	Absent	-	-	Absent	-	-	-	-	4,75 m*	4,24 m*	-	Age of Augustus - A.D. 2nd century
	Northern tank N. 63.6	Above ground	Rectangular	Squared	Absent	-	Bricks	Absent	-	-	-	Openings on the two minor walls	3,40 m*	1,20 m*	-	Age of Augustus - A.D. 2nd century
Località Ca' Bianca	Tank linked to the sewer N. 72.3	Underground	Squared	Squared	-	-	Bricks	-	-	-	-	Linked to the sewer	-	-	-	Late Republican - Age of Augustus (?)

SUPPL. TABLE 2
TABLE OF THE FOUNDATION

Area	Record	Morphology and set up				Material					Assemblage	Dimension			Chronology	
		Plan	Cross section	Trench	Position	Sediment	Stone	Terracotta	Concrete	Wood	Disposition of material	Joint material	Lenght	Width	Depth	
Sanctuary Località Fornace	South foundation (3rd phase) N. 41.4	Simple linear	Homogeneous	Timbered trench	Underground structure								27,70 m* about (excavated)			End of 5th -beginning 4th century B.C.
	North and East foundations (4th phase) N. 41.5	Simple linear	Homogeneous		Underground structure	Loam of yellow colour								0,76 m*		End of 4th -beginning of 3rd century B.C.
	Plinth foundations (5th phase) N. 41.6	Irregular linear			Underground structure								Varied between 1,60 - 1,15 m			End of 3rd-2nd century B.C.
	Plinth foundation of the "U" shape building (6th phase) N. 41.7	Irregular linear			Underground structure					Burnt brick fragments		Header	0,60 x 0,60 m about			A.D. 1st century
	Western plinth foundation - Southern side of the Porticus of the 5th phase N. 41.10	Irregular linear			Underground structure		Stone flakes					Header				A.D. 1st century
	Eastern plinth foundation - Southern side of the Porticus of the 5th phase N. 41.11	Irregular linear			Underground structure					Burnt brick fragments and unburnt brick fragments		Tiled				
	Foundation parallel the Southern ditch N. 41.15	Simple linear		Timbered trench	Underground structure									0,30 m	0,70 m	A.D. second half of 1st century
Sanctuary Località Fornace	Two foundations to the north of the Northern ditch N. 41.16	Simple linear	Homogeneous		Underground structure		Stone fragments					Without courses	Mortar	12,5 m 10 m	2,5 m 2 m	A.D. second half of 1st century
	Foundations of the delimitation structure N. 41.17	Simple linear			Underground structure									1,80 m (N-W foundation)		A.D. second half of 1st century
	Fondation of the building with colonnade (<i>sacellum</i>) N. 41.19	Simple linear			Underground structure		Stone flakes			Burnt brick fragments			Mortar	0,70 m		A.D. second half 1st - end/beginning of 3rd century
	North-east/South-west foundation N. 41.20	Simple linear			Underground structure									12 m	0,70-1 m	A.D. second half of 1st century
	North-west/South-est foundation N. 41.21	Simple linear			Underground structure									More than 24 m	0,70-1 m	A.D. second half of 1st century
Landing Gate	Northern, eastern, western foundations of the <i>cavaedium</i> N. 42.5	Simple linear	Facings without core		Underground		Finished blocks of molasse sandstone					Four horizontal irregular courses (+ 3 courses of recess)	Mortar	North foundation: 8,50 m* East foundation: 8,50 m* West foundation: 8,80 m*	North foundation: 3,40 m* East foundation: 3,14 m* West foundation: 3,40 m*	First half of 1st century B.C.
	Urban walls N. 42.1	Simple linear	Facings without core		Underground		Sandstone blocks						Mortar	2,40-2,90m		
	Bridge foundation N. 43.2	Simple linear	Facing without core		Underground		Big ashlar of sandstone with latin sigla					Regular horizontal courses	Clamp	5,90 m* Ashlar: 2,20x0,45m	11,40 m* Ashlar: 1,20x0,60m	After first half of 1st century B.C.

SUPPL. TABLE 2
Table of the Foundation (Continued)

Località Fomasotti	Bridge foundation N. 44.2	Simple linear	Facing without core		Underground		Big ashlar of sandstone				Regular horizontal courses		12,10 m*	8,95-10m*		Late Republican - Age of Augustus
Sea harbour Località Treporti	Foundations of the two rectangular buildings N. 45.1	Simple linear	Facing without core		Underground		Medium/big blocks of finished limestone									End 1st century B.C. - A.D. 1st century / A.D. 3rd-4th century
	Plinth foundations of the two rectangular buildings N. 45.2	Irregular linear			Underground			Bricks					2 m	2 m		End 1st century B.C. - A.D. 1st century / A.D. 3rd-4th century
City harbour Palude di Cora	Foundation N. 46.1	Simple linear	Facing without core				Stone blocks									
Eastern area of Museum	Quay foundation N. 47.2	Platform	Facing without core				Big blocks of finished molasse sandstone									Late Republican
W Storcello bank	Quay foundation N. 48.1	Platform	Facings without core				Big stone blocks						192 m (excavated)			Late Republican
N-W area of Museum	Quay foundation N. 49.2	Platform	Facings without core					Burnt bricks					16,30 m			End 1st century B.C. - A.D. half 1st century
	Quay plinth foundations N. 49.3	Irregular linear						Bricks								End 1st century B.C. - A.D. half 1st century
Località Fomasotti	Quay foundation N. 50.1	Simple linear	Facing without core					Bricks					17,20 m (preserved)			Late Republican / A.D. first half 1st century
	Eight quay plinth foundations N. 50.2	Irregular linear						Bricks								Late Republican / A.D. first half 1st century
N-W area of Museum	Foundation of the warehouse N. 51	Simple linear			Underground			<i>Sesquipedales</i>								End 1st century B.C. - A.D. half 1st century
Località Portoni	Foundations of the warehouse N. 52.1	Simple linear	Facing without core		Underground		Parallelepiped blocks of sandstone with shells. Finished in the upper part, roughing out in the bottom part				4 horizontal courses preserved		Block: 1,17-1,96 m	Block: 0,89-0,93 m		Late Imperial Period
	Ten plinth foundations of the warehouse N. 52.2	Irregular linear			Underground		Sandstone and trachyte flakes									Late Imperial Period
	Two plinth foundations of the warehouse N. 52.3	Irregular linear			Underground		Finished blocks of sandstone									Late Imperial Period
Urban	Foundations of the bath N. 53.8	Simple linear			Underground		Stone flakes	Burnt brick fragments	Compact mortar							Age of Augustus - A.D. 3rd century

SUPPL. TABLE 2
Table of the Foundation (Continued)

	Foundations of the <i>praefurnium</i> N. 53.9	Simple linear			Underground	Loam		Burnt brick fragments			Stratified				Age of Augustus - A.D. 3rd century
	Four plinth foundations of the bath N. 53.4	Irregular linear			Underground			Bricks Burnt brick fragments	Mortar		Roughly poured (concrete and burnt brick fragments) Horizontal course (brick)	Mortar			Age of Augustus - A.D. 3rd century
	Two plinth foundations of the bath N. 53.5	Irregular linear			Underground			<i>Sesquipedales</i>				Mortar			Age of Augustus - A.D. 3rd century
Urban centre	Foundation in the East sector of the bath N. 53.6	Simple linear			Underground		Trachyte flakes	Burnt brick fragments			Stratified	Mortar	14 m (excavated)	1 m about	Age of Augustus - A.D. 3rd century
	<i>Praefurnium</i> foundation of the bath N. 53.7	Platform	Homogeneous		Underground	Sand; pink shade loam					Stratified				Age of Augustus - A.D. 3rd century
Eastern area of the Museum	Plinth foundations of colonnade (1st phase) N. 54.1	Irregular linear						Bricks							Age of Augustus
	Plinth foundations of colonnade (2nd phase) 54.2	Irregular linear													A.D. 2nd century
	Perimetral foundations of a building N. 57.1	Simple linear	Homogeneous		Underground		Polygonal blocks used for crown of the road and crepidine				Without courses			1,50 m	A.D. 4th-5th century
North area of Museum	Foundation N. 55	Simple linear	Homogeneous		Slightly underground		Polygonal blocks used for crown of the road and crepidine				Without courses				A.D. 4th century
Southern area of bath	Preparatory layers of the floor of the building (2nd phase) N. 56.4	Platform				Gravel	Stone fragments	Tile fragments	White coarse lime mortar; white purified mortar		Stratified (mixture of lime mortar, gravel and stone fragments; purified mortar; tile fragments)			White purified mortar: 0,05-0,10m	Early Imperial Age
	Foundation of the building (3rd phase) N. 56.5	Simple linear	Homogeneous		Underground			Tile fragments			Without courses				
Southern area of bath	Preparatory layers of the floor of the building (3rd phase) N. 56.6	Platform					Stone fragments	Tile fragments	White coarse mortar		Stratified (mixture of white coarse mortar with stone fragments; layer of tile fragments)				
<i>Domus</i> Località Fornasotti	Foundation (1st phase) N. 58.1-58.9 N. 58.11-58.12	Simple linear	Homogeneous		Underground						Horizontal courses	Row clay	1,15 m; (preserved) 0,85 m; (preserved) 2,70 m (excavated) 2,60 m*; 2,40 m*; - 6,27m (excavated) 1,56 m (preserved) 0,40 m*; 2,40 m*; 4,10 m (excavated) <i>Sesquipedalis</i>		Ante second half of 1st century B.C.
														<i>Sesquipedalis</i>	

SUPPL. TABLE 2
Table of the Foundation (Continued)

												0,45 m <i>Bipedalis</i> : 0,60 m	0,30 m <i>Bipedalis</i> : 0,60 m		
	Foundation (2nd phase) N. 58.13; 58.14; 58.16; 58.18-58.23	Simple linear	Homogeneous		Underground			Tiles, <i>sesquipedales</i>		Horizontal courses (flaps of tiles facing upwards; upper course of tiled <i>sesquipedales</i>)	Clay	N. 58.14: 11,95 m N. 58.20: 7,45 m <i>Sesquipedalis</i> : 0,24 m 0,42 m 0,45 m 0,45 m Tile: 0,50 m	- <i>sesquipedalis</i> : 0,17 m 0,29 m 0,32 m 0,35 m Tile: 0,30 m		End of 1st century B.C.-A.D. first half of 1st century
<i>Domus</i> Località Fornasotti	Foundation (2nd phase) N. 58.15; 58.24	Simple linear	Homogeneous		Underground			<i>Sesquipedales</i>		Horizontal courses (tiled and stretcher)	Clay	N. 58.15: 6,70 m*; -	- N. 58.24: 1,25 m <i>Sesquipedalis</i> 0,30 m 0,31 m		End of 1st century B.C.- A.D. first half of 1st century
	Foundation (2nd phase) N. 58.17	Simple linear	Homogeneous		Underground			Tiles		Horizontal courses	Clay	Tile: 0,50 m	Tile: 0,30 m		End of 1st century B.C.- A.D. first half of 1st century
<i>Domus</i> - Località Morata dei Poroni	Foundation N. 59.1	Simple linear	Homogeneous		Underground			Bricks							Age of Augustus - A.D. end/ beginning of 2nd century
<i>Domus</i> -Località Ca' Bianca	Foundation N. 60.1	Simple linear	Homogeneous		Underground			<i>Sesquipedales</i>							Age of Augustus
<i>Domus</i> della Partana	Foundation (1st phase) N. 61.1	Simple linear	Homogeneous		Underground			<i>Sesquipedales</i>							1st century B.C.
Villa along Dese	Foundations of the northern sector N. 62.1		Homogeneous					Bricks					0,60 m		
	Foundation wall N. 62.2	Simple linear			Underground							22 m	0,30 m		
Suburban Villa	Foundation N. 63.5	Irregular linear	Homogeneous					Burnt bricks		Squared or "U" shape foundations, associated to brick <i>pilae</i>					Age of Augustus - A.D. 2nd century
	Foundation N. 63.7	Platform	Homogeneous			Burned raw clay				Stratified with circular shape					Age of Augustus - A.D. 2nd century
Northern of the city	Foundation of a furnace for limestone production N. 66						Stone			Without courses (roughly joined together)					A.D. 4th-5th century
N-E area of urban centre	Foundation N. 67.1	Simple linear	Homogeneous		Underground			Bricks		Horizontal courses	No mortar				Late Republican

SUPPL. TABLE 2
Table of the Foundation (Continued)

Località Formasotti Cappannone del Late	Foundation N. 68.2	Simple linear	Homogeneous		Underground			Burnt brick fragments			Tiled		0,80 m		Roman Imperial Period
Southern of idrovona consorziale	Foundation N. 69	Simple linear	Homogeneous		Underground		Medium and big stone block; Marble fragments		Concrete		Horizontal courses (stone blocks); Pouring (marble fragments with concrete)		0,30 x 0,60 x 0,50 m		
Località Formasotti	Foundation N. 71.4	Simple linear			Underground		Stone blocks				Horizontal course				
	Foundation N. 71.5	Simple linear	Homogeneous		Underground			Bricks			Horizontal courses				
Necropolis along Annia road	Subfoundation of a building N. 74.1	Platform			Underground			<i>Sesquipedales</i>							Age of Augustus- A.D. beginning 3rd century
	Foundation around the <i>praeformium</i> N. 74.3	Simple linear						Bricks			3-4 courses preserved. Located 0,20m above of the deposit of <i>amphorae</i> (N. 71.2)				Age of Augustus- A.D. beginning 3rd century
Necropolis of the Northern- Eastern Annia road	Foundation of a huge monument close to the Northern ditch of Annia N. 75.2				Underground		Finished medium and big Trachyte blocks				Horizontal courses		Area of 12 x 9 m		
	Foundation of the corral close to the huge monument near the Northern ditch of Annia N. 75.3						Brecciated stones	Brecciated bricks							
	Foundation of a large circular shrine tomb close to Southern ditch of Annia N. 75.4		Facings and core		Underground		Small stone blocks; Stone flakes	Brick fragments	Concrete		Horizontal courses (small stone blocks); Homogenous (stone flakes, brick fragments and concrete)	Mortar	8 m about	1,90 - 2 m	
	Foundation of a corral (?) in the area between Località Formasotti and Belgiardino N. 75.5						Stone blocks				Horizontal course (one course preserved)				
Necropolis of the S-W Annia road	Circular foundation near the confluence of Zero and Sile N. 76.3		Homogeneous			Clay	Breccia				Without courses		diameter: > 80 m		
	Foundation of a corral N. 76.4		Homogeneous						Cocciopesto		Poured				
Necropolis in Località le Brustolade	Foundation of a huge monument N. 77.7	Platform	Facings without core		Underground			Bricks			Horizontal courses				
Necropolis in Località le	Foundations of two corrals along ditch bank N. 77.9	Simple linear	Facings without core		Underground			Bricks			Horizontal courses				A.D. first half of 1st century
	Foundations of a squared corral along a ditch bank N. 77.10	Simple linear	Facings without core		Underground			Bricks			Horizontal courses				

SUPPL. TABLE 2
Table of the Foundation (Continued)

Necropolis in Località le Brustolade	Foundations of two big corrals along the ditch N. 77.12				Underground			Whole and fragments <i>sesquipedales</i> ; parts of terracotta cornix			Horizontal courses		16,50 m (excavated)		
	Foundations of a stone corral N. 77.13		Facings without core		Underground		Stone blocks								
	Squared platform within of the stone corral N. 77.14	Platform	Homogenous		Underground	Sediment	Stone elements	Bricks							
	Foundations of <i>Lucius Cossutius</i> ' corral N. 77.15	Simple linear	Facings without core		Underground			Bricks			Horizontal courses				
Along Oderzo road	Foundations of a stone corral along the western ditch N. 78.1	Simple linear	Facings without core		Underground		Parallelepiped Aurisina limestone blocks				Horizontal courses (two courses preserved)	Lead clamp	6 m (foundation parallel to the road)		
	Preparation layer of the floor N. 78.6	Platform	Homogeneous		Underground			Burnt brick fragments			Pouring				
	Foundations of a squared corral N. 78.2	Simple linear	Homogeneous		Underground			Brick and <i>amphora</i> fragments			Without courses		8 m		0,80 m
Lagoon area close to Cavallino	Foundations of Building 5/D N. 80.2	Simple linear	Facings without core		-			<i>Sesquipedales</i>			Horizontal courses	Lime mortar			A.D. 1st-2nd century
	Four plinth foundations of building 5/G N. 81	Irregular linear	-		Underground										A.D. 1st-2nd century
	Four plinth foundations of Building 2/A N. 83.1	Irregular linear	Facings without core		Underground		Stone blocks								Imperial Period
	Four plinth foundations of Building 2/D N. 84.2	Irregular linear	Facings without core		Underground		Stone								2nd-1st century BC/ A.D. 3rd-4th century
	Foundations of Building 1/A N. 85.1				Underground				Planks and piles	Tiled planks at a distance of 0,45-0,50 m one to eachothers; piles vertical rooted at a distance of 0,80-0,90 m one to eachothers					A.D. 1st-3rd/4th century
Lagoon area close to Cavallino	Foundations of building 114-8 N. 88.1	Simple linear	Facings without core		Underground			<i>Sesquipedales</i>							Imperial Period
	Foundations of building 114-9 N. 89.1	Simple linear	Facings without core		Underground			<i>Sesquipedales</i>							Imperial Period
	Foundation of structure 10/C N. 90.1				Underground			Bricks				8,50 m	0,55 m		Roman Age
	Foundation of building 10/A N. 92.1		Facings without core		Underground			<i>Sesquipedales</i>							Imperial Period
Lagoon area close to Cavallino	Plinth foundation of building 10/A N. 92.2	Irregular linear			Underground			<i>Sesquipedales</i>				1,20 m	1,20 m	-	Imperial Period

SUPPL. TABLE 3
TABLE OF THE DRAIN/SEWER

Area	Record	Morphology and set up			Material			Assemblage			Dimension			Chronology
		Position	Cross section	Covering	Bottom material	Wall material	Covering material	Joint	Type of bottom coating	Type of wall coating	Lenght	Width	Gradient	
Sanctuary Località	Southern and northern drains (Pre-sanctuary phase) N. 41.3	Underground			Tracks of pile holes and loam									First half of 7th century B.C.
Landing Gate	Two drains of the urban walls N. 42.7	Underground												First half of 1st century B.C.
	Bridge drains N. 43.3													After first half of 1st century B.C.
N-W area of Museum	Three quay drains discharge into the canal N. 49.4	Underground				Half brick elements	Half <i>sesquipedales</i> (cut along their width)							End of 1st century B.C. - A.D. half of 1st century
	Two quay drains discharge into the canal N. 49.5	Underground			Wooden planks	Brick elements	Half <i>sesquipedales</i> (cut along their width)							End of 1st century B.C. - A.D. half of 1st century
Località Fomasotti	Quay drains N. 50.3													Late Republican - A.D. first half 1st century
Domus Località Fomasotti	Drain (2nd phase) N. 58.28	Underground			Brick elements, tiles	Brick elements, tiles					8,25 m*			Last half quarter of 1st century B.C. - A.D. first half of 1st century
	Drain (3rd phase) N. 58.29	Underground			<i>Sesquipedales</i> with recesses	Bricks	<i>Sesquipedales</i>				9,80 m*			A.D. second half 1st century - half of 2nd century
	Drain (3rd phase) N. 58.30	Underground			<i>Sesquipedales</i> with recesses	Bricks	<i>Sesquipedales</i>				1,20 m*	0,54 m		A.D. second half 1st century - half of 2nd century
	Drain (3rd phase) N. 58.31	Underground			<i>Sesquipedales</i> with recesses	Bricks	<i>Sesquipedales</i>					0,45 m		A.D. second half 1st century - half of 2nd century
Suburban villa	Terracotta drain N. 63.3	Underground	Circular	Curved	-	Bricks	Bricks							Age of Augustus-A.D. 2nd century
	Brick drain N. 63.4	Underground	Half circular	Voulted	Brick elements	Brick elements	Brick elements				0,50 m			Age of Augustus-A.D. 2nd century
Località Fomasotti Capannone del Latte	Drain related to a road N. 68.1	Underground			Tiles	Tiles fragments with their flaps facing upwards, fill in with brick element fragments								Roman Imperial Period
Località Ca' Bianca	Sewer discharges into the ditch N. 72.1	Underground	Half circular	Voulted	<i>Sesquipedales</i>	<i>Sesquipedales</i>	<i>Sesquipedales</i>				34 m (excavated)			Late Republican - Age of Augustus (?)
	Four drains linked to the eastern side eastern side of the sewer N. 72.2	Underground	Squared	Flat	<i>Sesquipedales</i>		<i>Sesquipedales</i>							Late Republican - Age of Augustus (?)

SUPPL. TABLE 3
Table of the Drain/Sewer (Continued)

Località Ghiacciaia	Drain underneath a urban road N. X	Underground			<i>Sesquipedales</i>	<i>Sesquipedales</i>	Roughing out Trachyte blocks (probably)							Age of Augustus
Urban center	Bath drain N. 53.8	Underground			<i>Sesquipedales</i>	<i>Sesquipedales</i>								Age of Augustus
Eastern urban area	Sewer N. 41.3	Underground	Rectangular		<i>Sesquipedales</i>	<i>Sesquipedales</i>								

SUPPL. TABLE 4
TABLE OF THE BASINS/HYDRAULIC STRUCTURES

Area	Record	Morphology and set up				Material			Assemblage			Connection with conduits	Dimension			Chronology
		Position	Plain	Cross section	Covering	Bottom material	Wall material	Covering material	Joint	Type of bottom coating	Type of wall coating		Lenght	Width	Depth	
Sanctuary Località	Basin (pre-sanctuary phase) N. 41.2	-	Squared	Squared	Absent	-	-	Absent	Absent	Clayey loam	Clayey loam	-	4 m	3 m	0,70 m	First half of 7th century B.C.
Urban centre	Pool of the bath N. 53.3	Above ground	Rectangular	Squared	Absent	Cocciopesto	Cocciopesto	Absent	-	Marble and limestone squared slabs	Marble and limestone squared slabs	-	-	-	-	Age of Augustus - A.D. 3rd century
Domus Località Fornasotti	Basin (1st phase) N. 58.10	-	Rectangular	Squared	Absent	-	Tiled tiles	Absent	-	-	-	-	1 m* Tiles: 0,45 m	0,60 m*	-	Ante second half of 1st century B.C.
	Basin (2nd phase) N. 58.25	-	Rectangular	Squared	Absent	-	Tiled bricks	Absent	-	-	-	Two openings in the bottom part	1,25 m Bricks: 0,45 m	1,10 m	0,25 m	Last quarter of 1st century B.C. - A.D first half of 1st century
	Basin (2nd phase) N. 58.26	-	Squared	Squared	Absent	-	Tiled bricks elements	Absent	-	-	-	-	2,40-2,12 m*	1,20-1,30 m*	-	Last quarter of 1st century B.C. - A.D first half of 1st century
	Basin (2nd phase) N. 58.27	-	Rectangular	Squared	Absent	-	Tiled bricks, tile fragments	Absent	-	-	-	-	1 m*	1,30 m*	-	Last quarter of 1st century B.C. - A.D first half of 1st century
Suburban Villa	Western Basin N. 63.1	Above ground	Rectangular	Squared	Absent	Bricks (3 courses preserved)	Bricks (2 courses preserved)	Absent	Mortar	Mortar	Mortar	-	8,50 m	8 m	-	Age of Augustus - A.D. 2nd century
	Basin in the eastern sector N. 63.2	Above ground	Rectangular	Squared	Absent	-	-	Absent	-	-	-	-	4,75 m*	4,24 m*	-	Age of Augustus - A.D. 2nd century
	Northern Basin N. 63.6	Above ground	Rectangular	Squared	Absent	-	Bricks	Absent	-	-	-	Openings on the two minor walls	3,40 m*	1,20 m*	-	Age of Augustus - A.D. 2nd century
Località Ca' Bianca	Hydraulic structure linked to the sewer N. 72.3	Underground	Squared	Squared	-	-	Bricks	-	-	-	-	Linked to the sewer	-	-	-	Late Republican - Age of Augustus (?)

SUPL. TABLE 5
TABLE OF THE WELL

Area	Record	Morphology and set up				Material			Assemblage			Dimension			Chronology
		Plain	Trunk cross section	Shaft	Functional equipment	Base casing material	Trunk casing material	Head casing material	Joint	Disposition of material	Functional equipment thickness	Head diameter	Base diameter	Depth	
Sanctuary Località Fornace	Well (Pre-sanctuary) N. 41.1	Circular	Cone-shaped	Squared shape	Wood-lined box	Small wooden slats	Wood	-	-	Wood-lined box located at the base of trunk. The slats were also within the wood-lined box.	-	1 m about	0,50 m about	2,80 m*	First half of 7th century B.C.
	Northern well (6th phase) N. 41.8	Circular	Rectangular	-	Purified sand filter	Four wooden beams	Bricks	Puteal (similar to a cylindrical altar)	Mortar	Four wooden beams disposed to create a box and were located above the purified sand filter. Bricks disposed in 14 courses above the beams.	-	0,80 m about	-	1,20 m	A.D. 1st century - 2nd century
	Southern well (6th phase) N. 41.9	Circular	Rectangular	Subcircular shape	Purified sand filter; gravel; other draining soils	Wood-lined box composed of planks	Pozzali bricks	-	No mortar	From the bottom: gravel layer, above purified sand layer, on it the wood-lined box. Pozzali bricks disposed above the box.	Gravel: 0,20 m; Sand: 1 m	0,60 m	-	3,40 m	A.D. 1st century - 2nd century
